Bass limit changes

Bud LaRoche, District Fish Biologist for the Commission of Game and Inland Fisheries, reminds fishermen that the largemouth bass size limit will change on John H. Kerr Reservoir and Lake Gaston with the New Year.

Effective January 1, 1983 the largemouth bass minimum size limit was changed from 12 inches to 14 inches with the exception that two largemouth bass in the creel may be of any size. The creel limit of 8 fish per day per angler will remain unchanged.

Examples of legal and illegal creels are listed below for clarification purposes: Legal Creels

-two 15 inch largemouth, one 9 inch largemouth, one 11 inch largemouth or two 10-inch largemouth bass; or six 14 inch largemouth bass, two 8 inch largemouth bass.

Illegal Creels-two 15-inch largemouth, one 9 inch largemouth bass, two 10-inch largemouth bass (one illegal fish); or three 12-inch largemouth bass (one illegal fish).

With this size limit change, all areas (Virginia and North Carolina) of both reservoirs will now have the same largemouth bass minimum size limit regulations.

Note: Sportsmen are reminded that the fishing licenses expired on December 31, 1982.
